PROFESSIONAL SUMMARY

Results-driven B.Tech Cyber Security graduate with hands-on experience in network security, security operations, and threat detection. Proficient in security tools including Kali Linux, Wireshark, Nmap, and Burp Suite. Completed internships in cybersecurity, cloud fundamentals, and secure application development. Strong foundation in vulnerability assessment, incident response basics, and information security. Seeking an entry-level SOC Analyst or Junior Cybersecurity Analyst role to contribute to security monitoring and organizational defense.

TECHNICAL SKILLS

Security Domains: Network Security, Information Security, Vulnerability Assessment, Incident Response, Threat Detection, Security Operations, Cryptography, Phishing Detection, Social Engineering

Security Tools: Kali Linux, Burp Suite, Wireshark, Nmap, Metasploit (Familiar), Git, Linux Command Line

Programming: Python (Basics)

Cloud & Networking: AWS & Azure (Basics), TCP/IP, DNS, Firewalls, Network Protocols, Security Monitoring

Soft Skills: Analytical Thinking, Problem Solving, Communication, Team Collaboration, Time Management

CERTIFICATIONS

- Certified LLM Security Expert (CLLMSE) – Red Team Leaders
- Certified LLM Security Professional (CLLMSP) – Red Team Leaders

INTERNSHIPS & EXPERIENCE

Cyber Security Intern (Kali Linux) | Edunet

May 2024 – July 2024

- Built practical skills in penetration testing fundamentals using Kali Linux tools for security assessments.
- Applied encryption techniques, secure data handling, and user authentication while analyzing system resistance to detection attacks.

Cloud Computing Intern (AWS & Azure) | EXCELR Services Pvt. Ltd.

Oct 2025 – Dec 2025

- Developed foundational knowledge of cloud deployment, virtual machines, storage, and basic security configurations on AWS and Azure.
- Explored monitoring, automation, and backup concepts to support secure cloud environments.

Full Stack Development Intern (MERN) | SmartBridge Educational Services

Apr 2025 – June 2025

- Developed understanding of frontend development, RESTful APIs, user authentication, and secure web application practices.

Artificial Intelligence Intern | SkillDziire

July 2024 – Sep 2024

- Supported data collection, preprocessing, model training, and evaluation for basic prediction and classification tasks.

PROJECTS

MalScan – Malware Scanner | Python

2026 | GitHub

- Developed a Python-based scanning tool for Kali Linux that detects suspicious processes, filesystem threats, persistence mechanisms, network anomalies, and potential rootkit activity.

Phishing Detector | Python

2026 | GitHub

- Developed a threat detection tool to identify phishing attacks by analyzing emails, websites, and links using pattern recognition techniques.

Password Strength Evaluator | HTML, JavaScript

2025 | GitHub

- Built a web-based application that evaluates password strength using entropy calculation and common pattern detection for improved security awareness.

Caesar Cipher Encryption Tool | Python

2025 | GitHub

- Implemented a classic encryption algorithm to demonstrate core cryptographic concepts and secure message handling.

ACHIEVEMENTS

- Participated in 3 cybersecurity competitions including Capture The Flag (CTF) at Army Institute of Technology
- Competed in Beat The Bug and Crypto Hunt challenges, strengthening practical problem-solving and cryptographic skills

EDUCATION

B.Tech in Cyber Security | Ramachandra College of Engineering | Graduated 2026

Relevant Coursework: Network Security, Cryptography, Operating Systems, Computer Networks, Information Security

Languages: English (Professional Proficiency)
